

Our Early Years Vision

In our Foundation Stage, our vision is that our children know **more**, **remember more** and **do more**. We aim to build secure foundations and prepare children for their next stage of learning and beyond. We provide disadvantaged pupils with some of the knowledge and cultural capital they need to succeed in life. We are passionate that children with SEND achieve the best possible outcomes.

We create an **enabling, engaging environment** through a carefully balanced EYFS curriculum which combines **planned experiences** and in the moment interactions. We understand the importance of communication and language so provide a language rich environment where stories are essential.

At Angram Bank we understand that children are **unique** and have their own personal interests and experiences. We aim for children to be constantly learning and using their **critical thinking**. We strive for our children to be **kind, confident, resilient, curious and independent** learners. This is achieved through scaffolding children's learning, **high quality interactions** and building strong **positive relationships** between adults, children and their families.

The impact of our bespoke, ambitious curriculum and skilled, caring adults is that children make good progress in relation to their starting points and feel safe, secure and **happy**.
